

Trash Can Program

The South Wilkes Barre Business Alliance is currently in the process of developing a "Clean Up the Neighborhood" Trash Can program. Businesses throughout the South Wilkes-Barre area will be proudly displaying the trash cans in front of their businesses. Students from Myers High School will be assisting in painting and placing decals on the cans. Our aim is to send a visible message to the community that there is united support for positive change in the area. If you are interested in placing and maintaining a trash can in front of your business, you can contact Pat Gazenski at pgazen@ptd.net.
